History and Description

MILLERSVILLE STATE NORMAL SCHOOL, the oldest normal school in Pennsylvania, was recognized as a State Normal School, December 2, 1859. This recognition was in accordance with the Normal School Law of 1857. However, five years before this, Millersville Normal, as an institution of learning and professional training, had its origin when the "citizens of Millersville and its vicinity . . . erected a building for the purpose of establishing a school, which they proposed to denominate the Millersville Academy." The years between this beginning and the recognition of the school as a State Normal were years of success and progress. In many respects this "First State Normal School in Pennsylvania" became the model of all the others in the State as well as many Normal Schools in States lying west of Pennsylvania. From 1857 to 1917 the business affairs of the School were managed by a Board of Trustees elected by the stockholders and appointed by the State Superintendent of Public Instruction. Since February 24, 1917, the Millersville State Normal School has been owned by the State and managed by a Board of Trustees consisting of nine men appointed by the State Board of Education.

Millersville is a pleasant village, situated four miles southwest of Lancaster city, in the richest agricultural county in the United States. It is also a most beautiful and healthful place for a school. By trolley car, Millersville is just a half-hour's ride from Lancaster, cars leaving Center Square, Lancaster, on the hour and half-hour for Millersville. These cars are easily reached from the Pennsylvania and Reading Railway stations.

The location of the Millersville Normal School is especially favorable to moral culture. It is near enough to Lancaster to enjoy the benefits of a city, and yet not so near as to expose students to the numerous temptations common to cities. There are six churches of different denominations in the village where students may attend. Millersville is a village of homes. Many families come to live in the village while their children are attending school.

Course of Study for Pennsylvania State Normal Schools

Regular Normal Course

[As finally revised and adopted at a meeting of Normal School Principals held at Harrisburg, December 30, 1910.]

NOTE—This course is based on the “unit” plan as proposed by The Carnegie Foundation.

A “unit” represents a year’s study in any subject in a secondary school constituting approximately a quarter of a full year’s work (40–60 minute periods).

Students admitted to the First Year shall have a fair knowledge of Arithmetic, Reading, Orthography, Penmanship, United States History, Geography, Grammar, Physiology, Civics, and the Elements of Algebra to Quadratics. Test by Faculty.

(Final Examination by State Board.)

Note.—During the school year 1916–1917 recitation periods were one hour long. The Faculty voted to continue the hour periods during 1917–1918. Generally the hour period is more satisfactory and more economical.

Conditions of Admission, Etc.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade, and city high schools as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or third year without having previously attended an accredited high school must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above, shall not foot up more than 320 class-hours.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the examinations at any other State Normal School during the same school year.

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double entry bookkeeping, and all studies completed by them shall be named in their certificate. Persons who have been graduated may be

examined at any State examination in any higher branches, and the secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they were conditioned and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State Examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

11. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

High School Credits

Graduates of high schools, recognized by the Department of Public Instruction, are credited with any academic work done in the high school, whenever the same is equivalent, in quantity and kind, to that required in

the Regular Normal Course, excepting United States History and Political Geography in the third year and Arithmetic and English Grammar in the fourth year. [Rule passed by the Board of Normal School Principals, Nov. 6, 1913.] In case students, who have satisfactorily completed four years' work in a foreign language, prefer to take one or two years of additional work of the same foreign language, they shall have credit on their diplomas for the four years' work without being subjected to State Board examinations therein. [Rule passed by the Board of Normal School Principals, Dec. 26, 1916.]

Students who are holders of Teachers' Certificates should bring them to the School for the purpose of classification. High School graduates should send to the school for application blanks for high school credits.

Courses of Instruction

Art

The work in Drawing is intended to give the student a better appreciation of Art as well as a knowledge of its technique from the viewpoint of a teacher.

1. Freehand Drawing—Perspective: drawing of familiar objects, interior and exterior sketches; simple problems in composition; plant forms; cast drawing; history of architecture, notes, reference work, and reports; mediums: pencil, charcoal, and water color. *Time: one term.*

2. Freehand Drawing (Second Course)—Design: simple problems suitable for public school use, surface patterns, borders, corners, etc.; color: harmony and theory of color; simple lettering; landscape in charcoal and water color; history of painting, notes, reference work and reports; mediums: pencil, charcoal and water color. *Time: one term.*

3. Senior Drawing—Design: application of plant forms to design, surface patterns and borders suitable for stenciling and wood block printing; color: theory and harmony of color as applied to textiles, interior decoration, and dress; lettering: simple problems in lettering for general school use; blackboard drawing: drawing of familiar objects, illustrations of children's stories; mechanical drawing: type forms and their application, special problems for individual students, interior decoration and house planning; water color: still life and plant forms, landscape; grade outlines; mediums: pencil, charcoal, water color, crayons, pen and ink, mechanical instruments, paper. *Time: one term.*

English

The work in the English Department includes Grammar, Rhetoric and Composition, Reading and Public Speaking, a brief study of the History of English and American Literature, and the mastery of the Classics required for college entrance. It aims to give students a definite and complete knowledge of the grammar of the language, the ability to write good English, the power of critical appreciation, and facility in effective expression.

1. Grammar—The Regular Normal Course prescribes grammar throughout the Freshman year. A thorough mastery of the analysis of sentences is followed by a careful study of the properties of the parts of speech. In addition to the foregoing, irregular and abbreviated constructions are studied, the position of the parts of speech, the derivation of some technical terms, and a little of the history of the language with a view to the better understanding of present inflectional forms.

During the Senior year Grammar is reviewed. One term is required for this review.

2. Rhetoric and Composition—This is a required study of the Sophomore year. It comprises a study of the principles of Rhetoric, the application of these in frequent exercises in Composition as well as a study of Classics illustrative of the principles and the various forms of composition. Much oral and written composition is required. Classics for study and reading: *Macbeth*, Milton's *Minor Poems*, *Tale of Two Cities*, *Sketch Book*, *Julius Caesar*, Homer's *Iliad* (Lange's Translation), *Ivanhoe*, *Lady of the Lake*, Macaulay's *Essay on Milton*.

3. History of English and American Literature—The Junior requirement fixes eighty hours for the study of English and American Literature. Much collateral reading is required. Special studies are made of the drama, the novel, romanticism, the short story, and poetry. Written exercises grow out of the study of the various types. The exercises are criticized from the view points of knowledge of subject matter and power of clear expression in writing. Classics for study and reading: Burke's *Conciliation*, Carlyle's *Essay on Burns*, *DeCoverly Papers*, *Hamlet*, *Idylls of the King*, *House of Seven Gables*.

4. Reading and Elocution—Emphasis is laid upon rapid thought-getting as an aid in all branches of study. Following this, considerable attention is given to the acquisition of power in clear and forcible expression. To orations outlined under helpful criticism, introductions are written by the student. These introductions are then delivered from the platform. Every student is also required to deliver a recitation or declamation in a

manner satisfactory to the teacher. This work is based on the elementary principles of expression. Articulation and phonics are taken up to correct individual errors and to prepare the student to teach phonics in primary reading which are now so generally required.

5. Public Speaking—Emphasis is placed upon the rules of effective public speaking. Each student appears no less than twice before a public audience.

History

1. Ancient History—This is a Freshman requirement of one term. After a brief survey of the ancient monarchies of the Euphrates and Nile River valleys, the history of Greece and Rome is studied. The rise, growth, and decline of these nations are considered with special reference to their contributions to future civilizations. A text-book-in-chief is used. This is supplemented by outside reading and free lecture work.

2. Medieval History—The course takes up European conditions from the fall of Rome to the fifteenth century. Study centers about medieval conditions, which became later contributing factors to modern nations.

3. Modern History—Conditions in Europe at the close of Medieval times out of which developed the modern European nations are studied to show continuity of the trend of events in the growth of nations and peoples. Following this, nation forming becomes the chief study. This study forms the European background for the study of American History in the Junior year. International relations receive special attention.

4. English History—A study of the development of the England of to-day through the period of invasions, the feudal period, the constitutional period, and the industrial and expansive period. Textbook work, readings, and reports.

5. United States History—Following the study of European conditions, the student sees new relations between these and conditions in colonial America. The study of the peculiar characteristics of each group of colonies is followed by a study of the struggle for independence. Then a study of the constitutional period brings out the growth of the essential American ideals. The course assumes many of the elementary facts and aims to show the larger movements and relations, thus giving the real interpretation to the history of the United States.

6. Civics—National, state, and local government is studied. Principles underlying American government are brought out. In addition to a careful analysis of the Constitution of the United States, the historical development of our government receives much attention.

Home Economics and Industrial Arts

1. Domestic Art—This course includes the making of fundamental stitches, the use of the sewing machine, the drafting of patterns, and the making of simple garments. After consulting the instructor, students will provide their own materials. When satisfactorily completed this course may be counted as credit toward the Regular Normal Course.

2. Domestic Science—The purpose of this course is to give a general knowledge of the principles of cookery, selection of foods, food values, planning of meals, and table service. Lectures and lessons in the form of experiments will be a large part of the course. It is designed to give the students the best way of preparing foods as well as skill in handling food materials. In class students will wear a wash dress and simple plain white apron. They will also furnish for their own use two dish cloths, two dish towels, two hand towels, and one holder. The cost of materials is divided equally among the members of the class. One dinner will be served to guests near the close of each term. The cost to each student will probably not exceed one dollar.

3. Industrial Arts for Elementary Grades—This course covers work for the eight grades of the rural and elementary schools. The relation of this work to other subjects will be emphasized. Actual problems will be worked out in class, supplemented with other suggestions along lines of paper cutting, tearing, folding, weaving, basket making, poster making, and construction work. This course is required of all ladies in the Freshman year.

Latin

Four years of Latin are regularly offered.

1. Freshman Latin—This includes the customary work preparatory to the reading of Caesar.

2. Caesar—The Sophomore work in Latin includes four books of Caesar's Gallic War. In addition to this, considerable time is devoted to a review of the grammar and to prose composition.

3. Cicero—In the Junior year six orations of Cicero—four against Catiline, Archias, Manilian Law—are required of those taking Latin.

4. Vergil—Six books of Vergil are required of Seniors taking Latin in the Senior year.

5. Advanced Latin—When a sufficient number of students desire to study advanced Latin of college grade, a class will be organized. Such classes may take up Horace, Livy, or anything else which meets their particular need. By taking advanced Latin under the State Board, credit for Caesar, Cicero, and Vergil is received without State Board examinations in Caesar, Cicero and Vergil.

WEeping WILLOWS BY THE LAKE

Mathematics

1. **Arithmetic**—Two terms of Arithmetic are required of all Freshmen. The fundamental principles of Arithmetic and their application to the solution of problems receive special attention. Practice in rapid and accurate calculation is essential here.

2. **Algebra**—This is required of all Freshmen. A knowledge of the subject to quadratics is assumed. The course includes a thorough review of principles and problems to quadratics and then takes up quadratic equations, theory of exponents, proportion, and progressions. Much practice in solving problems is required. A study of graphs is also included.

3. **Plane Geometry**—Five books of Plane Geometry are covered in the Sophomore year. A thorough study of theorems is followed by their application to originals and constructions.

4. **Solid Geometry**—All of Solid and Spherical Geometry is required of these electing Mathematics in the Junior year.

5. **Trigonometry**—During the second half-year of the Junior course, Analytical Trigonometry is required of all students electing mathematics in the Junior year.

6. **Surveying**—After completing Trigonometry, one term is required to complete this subject.

7. **Senior Arithmetic**—For one term all Seniors are required to review Arithmetic. In this study considerable attention is paid to finding the best methods and short solutions to problems.

8. **Higher Mathematics**—Classes in mathematics in advance of the course outlined above will be formed whenever a sufficient number of students elects the same.

Manual Training

1. Fifty periods of shop work are required of the gentlemen. At least three projects in woodwork must be completed in this time. The course consists of the construction and design of the projects, and the working out of the bill of stock. This work covers the use and care of common tools, laying out work, methods of construction, common joints, fastening devices, and wood finishing. This is a Freshman course.

2. **THEORY**—Fundamentals of mechanical drawing, the construction and design of the project, an efficient way of getting started on a job. **TOOLS**—Measuring tools, cutting tools, and boring tools; points in their construction, growth, seasoning, and selection. **THE STANDARD JOINTS**—How marked out and how cut. **WOOD FINISHING**—Stains, filler, varnishes, wax, and their application. **PLANNING** a course in elementary woodwork. This is a Senior course.

Modern Languages

1. **First Year German**—This course deals with pronunciation, conversation, grammar, composition. From 75 to 100 pages of *Märchen und Erzählungen* and *Immensee* are read.

2. **Second Year**—Grammar, composition, and a careful reading of 200 pages of *L'Arrabbiata*, *Höher als die Kirche*, *Im Vaterland*, *Der Prozess*, *Das Kalte Herz*, with much conversation in German are required.

3. **Third Year**—Grammar, conversation, and about 400 pages of *Die Nonne*, *Wilhelm Tell*, *Minna von Barnhelm*, *Hermann und Dorothea*, *Das Lied von der Glocke* are required.

4. **Fourth Year**—Classics read are *Der Grosse Preussenkönig*, *Soll und Haben*, *Götz von Berlichingen*, *Der Traum ein Leben*, *Emilia Galotti*, etc.

French—Two years of French may be taken. This work may be substituted for Latin or German.

Science

1. **Physical Geography**—To furnish the students of the first year not only with knowledge of the earth's surface features and the phenomena of land, water, and atmosphere, but also to develop on the part of each student the power of observing correctly, interpreting clearly, and presenting in lucid language the geographic features and phenomena about them, is the aim in this course. To do this field work, mapping, map interpretation, the making of outlines of study, the use of reference books as well as the mastery of some standard text-books upon the subjects are required.

2. **Botany**—Systematic Botany forms the basis of the work required in Botany. The characteristics of the four principal groups of plants and the structure and functions of the higher plants are included in the course. Students are required to collect, mount, name, and analyze thirty-five plants. Laboratory work. Note book.

3. **Zoölogy**—Animal Ecology forms the basis of the work in Zoölogy. The characteristics of the principal branches of the animal kingdom, the fundamental laws of development and distribution, and the various theories of evolution, are included in the course. The museum contains valuable illustrative material for this course. Laboratory work. Note book.

4. **Chemistry**—A year in General Inorganic Chemistry is required in the Junior year. This course includes the preparation and properties of the more important elements and their compounds, as well as a presentation of the fundamental laws and theories of the Science of Chemistry.

Regular laboratory work, with individual experiments, and note-books are required.

5. Physiology and School Sanitation—Not only a good knowledge of the science of the human body is required, but the course aims to acquaint the students with the best means of applying modern science to the sanitary conditions of the school and home.

6. Physics—The equivalent of a year's work is required in Physics. Each student works in the physical laboratory completing in the year's work thirty-six experiments. The demonstration work by the teacher is so planned that each experiment gives the student a real insight into a physical law or indicates how the law may be derived. The major part of the laboratory work done by the students is quantitative. In the course stress is laid on causes and effects in such a way as to broaden and clarify the student's appreciation of natural law.

7. Geology—The course in Geology requires one-half year. It gives a fair knowledge of geologic processes, the forces which produce them, the explanation of the more important phenomena that originate within the earth as metamorphism, earthquakes, volcanoes, making of veins, etc. A good knowledge of the history of the earth's changes is also a requirement. Some field work is required in which physiographic features are described and explained and at least fifteen minerals or rocks are collected and classified.

8. Astronomy—Elementary descriptive Astronomy is offered to students of the Junior class. Time required, one-half year.

Agriculture

Elementary Agriculture—The course aims to acquaint students with the elementary facts of Agriculture and especially to give them an insight into the possibilities of the application of modern science. The economic phases of this study receive special attention also. One of the best results coming from such a study is the dignity it gives to the farmer's calling. An acquaintance with the Government's attitude toward farming proves beneficial. Each student taking this study will have a plot in the School Gardens.

Education

1. School and Class Management—This course aims to acquaint the student with the best methods and plans of organizing schools, with special reference to RURAL SCHOOL CONDITIONS. School organization, the daily program, physical surroundings of the school, school government, etc., will be studied.

2. General Methods—Under the head of General Methods the follow-

ing points are carefully studied: the aim of education, the factors conditioning the teaching process, the teaching process, the drill lesson, the inductive lesson, the deductive lesson, the lesson for appreciation, the study lesson, the review and examination lesson, the recitation lesson, questioning, social phases of the recitation, moral training, and lesson plans. This is a second year requirement.

3. Methods in Geography—This begins with a study of the three great questions: relation, method, material. Analysis of the relation of geography to other subjects of study is taken up. Then follow methods of presentation and selection of materials for the course of study.

4. Methods in History—Here the aim of instruction in History, material to be used, and methods of presentation are carefully considered.

5. Methods in English—This includes methods in Language, Grammar, Composition, and Literature. Unity in the English course is aimed at. The most approved methods of instruction are studied and material for the course of study examined.

6. Methods in Elementary Mathematics—This course includes the methods of teaching Number, Arithmetic, and Algebra. Attention is also given to methods in constructional geometry.

7. Primary Methods—One term of Primary Methods is given in addition to the requirements of the Regular Course. This includes Primary Reading, Number Work, Language, Seat Work, etc.

8. History of Education—The course consists of a careful study of ancient, medieval, and modern education with special attention to phases of present day educational problems.

Rural Sociology

For the purpose of acquainting teachers with accepted methods of studying rural conditions an elementary course in rural sociology is offered. This is a senior elective. A text-book-in-chief is followed which is supplemented by collateral reading, reports, and a study of statistics of rural communities. The course aims to give the prospective rural school teacher the right point of view and the proper attitude.

Psychology

The Junior class devotes a full year to a comprehensive study of psychology, purposing a broad survey of and an acquaintance with all the major aspects and functions of the human mind.

1. Physiological Psychology receives special attention, considering mainly nerves, neurones, reflex action, the anatomy of brain localization, functions of the cerebellum, medulla oblongata, and peripheral nervous system, with especial study of the important senses of vision, hearing, smell, taste, touch, temperature, and pain.

2. **Analytical and Introspective** phases of mental life receive careful consideration in studying consciousness, attention, sensation, perception, apperception, memory, association of ideas, imagination, the reason, feelings, emotion, and the will. Some attention is given to illusion, delusion, hallucination, dreams, hypnotism.

3. During the Spring term the principles of Psychology are applied in a study of Child Psychology and in the consideration of defective and backward children.

Observation

The members of the Junior class devote certain periods to observation work in the Model School. Here methods of Teaching and Class Management are the chief points for observation. On special days when the supervisors in the Model School are teaching for the practice teachers, the members of the Methods classes are invited to observe. This observation work is in charge of the instructor of the classes in Methods. Carefully written reports are required of each observer.

In addition to the foregoing, members of the Methods classes are sent to observe, for a half day at a time, in the surrounding rural and graded schools. Written reports are required of these observations.

Commercial Branches

1. **Bookkeeping**—A course in elementary double entry bookkeeping is offered. The budget system is employed which allows for individual progress and makes for accuracy.

2. **Typewriting and Shorthand** are offered. These are open to all students who have time and inclination to take them. The courses are thorough, complete, and designed to equip students for office work. In many schools of today commercial branches are taught. A teacher may here get this training preparatory to such teaching.

3. **Penmanship**—Every teacher ought to have skill in writing both with pencil and pen as well as on the blackboard. Each student is required to present evidence of the ability to write legibly and of a fair knowledge of the principles of writing. In the Senior year some special time and attention are devoted to methods of teaching writing.

Practice Teaching

Every Senior teaches under expert and close supervision in the Model School and School of Practice from thirty to sixty minutes daily through the entire school year of forty weeks. Here the principles and methods of teaching as well as of school and class management taught during the

previous years are applied. Weekly and daily lesson plans are made and criticized by the various supervisors. These plans are then carried out in the class-room.

The work is so planned that each Senior will have an opportunity to teach in Primary, Intermediate, and Advanced grades. From three to six different subjects are taught by each. At weekly conferences held by the supervisors, attention is called to points of progress in the art of teaching. All suggestions are intended to be constructive criticism.

Five regular supervisors, including the Superintendent of the Model School, spend their entire time in this practical aspect of teacher-training. In addition to these, the Normal School teachers of Drawing, Music, Manual Training, and Penmanship supervise the teaching of their specialties. The training gained in this practice teaching is intensely practical. The Model School classes are graded according to modern ideas of graded schools, and include a Kindergarten, an Elementary School of eight grades, and a High School with a three years' course of study.

Physical Culture

All students are required to take the work in this department. They report in the Gymnasium for two hours each week. Any one who claims to be unable to go through the light exercises must have a physician's certificate stating the reasons why such student shall be excused. All excused students observe. The course aims to prepare teachers to conduct such calisthenic and gymnastic exercises as are possible in the public schools. At the same time it serves as a means to keep students themselves in regular exercise.

Games and **play** for children receive considerable attention. Before graduation a student must present evidence of a knowledge of such games as may be selected by the instructors of Physical Culture. Following is a selected list:

All Up Relay; Arch Goal Ball; Balloon Ball; Baseball (indoor and out); Baste the Bear; Beast, Bird, or Fish; Bean Bag Race; Black and White; Bombardment; Captain Ball; Cat and Mouse; Chinese Wall; Circle Race; Circle Stride Ball; Club Snatch; Corner Ball; Dodge Ball; Drive Ball; Duck on the Rock; Emperor Ball; First Ball; Fox and Geese; German Ball; Hill Dill; Indian Club Race; Japanese Club Race; Jump the Shot; Kick Ball; Last Couple Out; Long Base; Maze Tag; Midnight; Numbers Change; Over and Under Pass Ball; Oyster Shell; Pass Ball; Passing Race; Pig in a Hole; Potato Race; Prisoner's Base; Soccer; Shuttle Relay Race; Spud; Statues; Stealing Sticks; Three Deep; Volley Ball.

Music

1. Vocal Music—Instruction in the elements of Vocal Music is imparted to students, including sight reading, the proper management of the voice, the best way of presenting the subject to children, etc. The work is intended to cover the requirement of the Freshman year as set forth by the Course of Study.

2. Voice Culture—In addition to the regular course in Vocal Music, an excellent course in Voice Culture is offered to those who have special talent along this line and time to cultivate it. Special students are enrolled in this department. These pay only for special lessons. For rates, see page 33 of this catalogue.

3. Piano—Private lessons in playing. This is a thorough course. For rates see page 33.

4. Harmony—Lessons private or in groups of two or three.

5. Piano Pedagogy—This course is designed primarily for those who desire to teach piano, but is open also to any who may wish to have a more adequate knowledge of the fundamentals of music. The candidate should have a thorough knowledge of the major and minor scales and be able to play satisfactorily pieces of the grade of difficulty of *Beethoven's Rondo in C*, *Mendelssohn's Songs Without Words*, *Grieg's Peer Gynt Suite*, etc.

6. Ear Training—This class is open without extra charge to all students taking private lessons in music.

Other Instrumental Music lessons can be arranged for at rates specified on page 33.

Course on the Use of Books and Libraries

Course 1—The course includes a brief survey of the development of the modern library, arrangement of the Millersville library and general principles of the classification of books, the card catalogue, structure and care of books, printed parts of a book, periodical literature, periodical index, reference books, bibliography, history of the book, book selection (25 hours).

Course 2—Children's literature, selection and care of school libraries (10 hours).

Preparatory Course

Since a definite requirement is set for entrance upon the work of the Regular Normal Course, it will be impossible for a number of students to qualify for the Freshman year. For these a Preparatory Course is planned to give both the knowledge and training necessary for the work of

the Regular Course. In this course, Reading, Spelling, Writing, Arithmetic (Written and Mental), United States History, Geography, Grammar and Composition, Physiology, and Elementary Algebra are taught.

The Preparatory classes are taught by the regular members of the Faculty. This is an excellent course and offers an unusual opportunity to prepare for the Regular Normal Course.

Scholarships, Prizes, Etc.

Alumni Loan Fund

The Alumni and other friends of the school have established a fund, which is lent to deserving students without interest to enable them to complete their course. The fund amounts to nearly \$1500, and its benefits have of necessity been confined to members of the Senior class. Contributions to the fund will be thankfully received. Address H. C. Symons, Millersville, Pa., treasurer of the fund.

Scholarships

A free scholarship has been established by the students of the School during the administration of Prof. James P. Wickersham as Principal. It is designed to honor the memory of this distinguished educator, and is entitled the Wickersham Memorial Scholarship. It is awarded at the close of each school year by the Faculty and State Board of Examiners to a student who has completed the "Final" examination for entrance to the Senior class and who is entitled to the benefit of State Aid. It includes boarding and the use of text-books, rent free, for the Senior year. The basis of selection is scholarship and moral character.

The sum of \$1000 has been subscribed by the Class of 1898, the interest of which is used annually in assisting to pay the expenses of a meritorious student. This scholarship is awarded at the close of each school year to the student who ranks second in his work preparatory for entrance to the Senior class and is payable after graduation.

Prizes for General Scholarship and Teaching

Prizes for General Scholarship and Teaching will be given by the Board of Trustees to students who will complete the Regular Course. They will be awarded on the basis of scholarship and will be due and payable after graduation. The amount of the prize, or prizes, will be deducted from the student's bill after graduation, or paid to him in cash if his bill is settled.

For General Scholarship

(a) To candidates for the Senior class who have attended school at least one year: 1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. (Open to all students except those to whom the scholarships are awarded.)

(b) To members of the Senior class: 1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. (Open to all Seniors except the holders of the scholarships.)

For Practice Teaching in the Model School

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. (Open to all Seniors except the holders of the scholarships.)

When two contestants entitled to prizes have equal rank, the prizes shall be divided equally between them. When a student's standing entitles him to two prizes (including scholarships), the higher prize shall be awarded to him.

The foregoing prizes are intended to encourage students to graduate, and consequently are awarded only upon the condition that the students selected to receive them complete the course of study in this institution. For this reason they do not become due until after graduation, nor are they payable to any one who does not graduate.

Prize for Excellence in Mathematics

The Class of '66 has invested, in perpetuity, the sum of \$500, the income of which shall be awarded to two students (one lady and one gentleman) who excel in mathematics. This prize is awarded to members of the senior class at the end of the school year.

For Debating and Public Speaking

Faculty prize. A silk banner with names of the members of the winning Society team on it is presented by the Faculty. Open to all students.

Principal's prize for oratory. The interest of \$250. Open to all students.

Class of '95 prize, for oratory. The interest of \$100. Open to members of the Freshman, Sophomore, and Junior classes.

Applications for Teachers

Many school directors and principals of schools ask the School to recommend good teachers. The School always tries to answer questions frankly and to assist school officers in finding the teachers best suited to their needs. At or near the close of the school year, the greatest service can be rendered.

Moral and Literary Culture

Moral and Religious Training

BELIEVING in the importance of moral and religious culture, the School takes great care to aid students in forming virtuous habits, to imbue their minds with correct moral principles, and to inspire their hearts with the truths of Christianity. The institution, however, is in no sense sectarian. Each student's religious belief is fully respected.

Among the religious privileges of the School are morning devotional exercises, Sunday Bible classes, prayer-meetings, and an occasional sermon or religious lecture. Students are required to attend the morning devotional exercises. They will be excused from the Bible classes if they or their parents or guardians have conscientious scruples against attending these. Attendance upon other religious exercises is voluntary.

Literary Societies

Among the attractions of the School are two flourishing Literary Societies conducted by the students, the "Page" and the "Normal." They hold weekly meetings. They have together about 12,000 well-selected volumes in their libraries. A student may become a member of one of these societies by paying a small initiation fee. *Every student is urged to join one of them.*

Lecture and Entertainment Course

A Lecture Course of high grade is given under the auspices of the school. For the school year 1916-1917, the following lectures and entertainments have been scheduled:

December 15—Maynard Lee Daggy—Lecture.

January 26—Bostonia Sextet.

March 2—B. R. Baumgardt—Lecture on Astronomy.

April 26—Suwanee River Quartet.

May 10—Ernest Thompson Seton—Lecture.

Christian Associations

A flourishing Young Woman's Christian Temperance Union is connected with the School. It includes among its members a large number of students of both sexes and accomplishes a great good.

A Young Men's Christian Association and a Young Women's Christian Association have been strong organizations in the Normal for many years. Each body has a large and influential membership.

Buildings and Grounds

Main Buildings

THE Main Normal School buildings are large, including the Administration Building, the Ladies' Building, and the Gentlemen's Building. The east front of the main buildings is about 300 feet long, the south front about 210 feet, and the north front 150 feet. Several upright water pipes that are connected with the standpipe are placed throughout these buildings, with hose attachments that will extend to all parts of the halls and rooms on every floor, and the utmost precautions are taken to prevent accidents by fire. There are eight stairways in different parts of the three main buildings, fire extinguishers are within easy reach, fire escapes and ladders are provided, and a special watchman is on constant duty at night. A large chemical fire engine is kept fully charged, in a convenient room, and the working-men connected with the School have been carefully instructed with regard to its use.

The Ladies' Building is a very large, handsome structure, in the old colonial style of architecture. It has accommodations for about 350 students.

The Gentlemen's Building, which is similar to the Ladies' Building in style, has accommodations for about 250 students.

A large Administration Building is between the ladies' and gentlemen's buildings, completely separating them. The central building contains the spacious chapel, recitation rooms, offices, book room, trustees' room, dining room, etc.

Gymnasium

A large gymnasium, fully equipped with the best modern apparatus for a complete course of physical training for ladies and gentlemen, is located north of the new annex to the ladies' building. It is in charge of a lady and a gentleman specially fitted for their work. All students have the opportunity of availing themselves of the great advantage of pursuing a course of physical training without extra cost. The work done in the gymnasium has proved of great benefit to students.

Library

A building, with frontage of 107 feet and a depth of 109 feet, erected for library purposes, occupies a prominent position northeast of the ladies' building. It is a very handsome building and contains the general library of the school, the reading room and reference library, the libraries of the literary societies, etc., in all about 18,000 volumes. It is under the charge of a trained librarian and several assistants. It is open from 8 A.M. to 5:20 P.M. The reference library is supplied with many of the latest and best encyclopedias and books of reference, including the latest works upon the subjects taught in the various departments of the School. The reading room is supplied with a large number of the leading magazines and reviews, daily and weekly newspapers, religious periodicals, educational journals, etc. These exceptional library advantages are afforded to all students without extra charge.

Science Hall

A building devoted to the sciences and arts is located on the north campus. The front of the building is 120 feet in length, the east wing 80 feet, and the west wing 56 feet. It contains class rooms for instruction in Physics, Botany, Zoology, Chemistry, Commercial Branches, Drawing, Manual Training, Home Economics, Industrial Arts; also physical, chemical, and biological laboratories. On the second floor of the north wing there is a museum which contains a number of valuable collections.

Model School and School of Practice

A building, 123 feet by 61 feet, used exclusively as a Model School and School of Practice, was completed in July, 1901, and first used in the fall of that year. This building was especially planned for this purpose, and

is in all respects a most commodious and most convenient Model School building. It is located east of the turnpike, opposite the administration building. It contains 20 recitation rooms, besides a large assembly hall, general office, library, two rooms for exercising, manual training room, chemical laboratory, room for kindergarten, etc.

In every respect this is an excellent modern school building.

Infirmary

A comfortable, two-story building, with steam heat, bath rooms, hot and cold water, cemented basement, with cooking equipment and laundry appliances, proper sewerage connections, etc., has been fitted up, following the suggestions of the county medical inspector and representative of the State Board of Health in Lancaster county. It is a double building, the two sides being entirely separate, one part for ladies, and one for gentlemen. It is properly isolated and conveniently located.

Grounds

The buildings are surrounded with grounds to the extent of about twenty acres, part of which is covered with forest trees, shrubbery, and flower beds and part is carefully laid out and used for tennis, baseball, football, and other outdoor games. A soldiers' monument, erected soon after the Civil War by the students, stands on the campus in front of the administration building, and two beautiful fountains adorn the ground in front of the ladies' building. A beautiful lake for skating and boating and containing myriads of gold fish forms part of the plan. The ground has been graded, walks have been laid out, and hundreds of trees and shrubs have been planted, which enhance the beauty of the place.

A never-failing supply of remarkably good water is found on the grounds. It flows upwards, like an artesian well, through the rocks, which form the bottom of a large reservoir, from which it is pumped into a standpipe eighty feet high, with a capacity of 50,000 gallons, and thence distributed throughout all the buildings and different parts of the campus.

Regulations for Students

1. Rooms may be engaged by writing to the Principal. All students are required to room in the school building or in private houses designated by the School. No one is permitted to room or board out of the school building until all the rooms are occupied, except for special reasons, and by previous permission of the Principal. Rooms are supplied with furniture, rugs, and bed-clothing, and will be ready for occupancy on the first Tuesday of the session. Rooms should be vacated not later than the day following the close of school. All keys must be returned to the Bookroom at the close of the Winter and Spring terms. *After the breakfast following the closing day before vacation, those who remain will be charged regular vacation rates.*

2. Rooms engaged and not occupied by the first evening of the term may be forfeited. Rooms will be assigned to new students in the order of their application and entrance as far as practicable. Rooms will be held two weeks for students who make the advance payment on or before the opening of the term. *To have a room reserved the enrollment fee must be paid when reservation is made. In case a student cannot come to school, this fee will be refunded if the Principal is notified not later than the Saturday before the opening of the term for which the room is reserved.*

3. Students will furnish their own towels, soap, and napkins and must have all articles of clothing plainly marked with indelible ink with the full name. Each student is entitled to have fifteen pieces washed a week without extra charge. He will be charged for additional pieces. Electric light is furnished by the school, and other lights are not permitted.

4. Students must have their rooms in good order and ready for inspection by 9 A. M.

5. A student's first duty is to report at the public office for enrollment. Here his program is arranged. After this all classes must be entered promptly. Every student shall be present at the daily opening exercises of the school, and at all general exercises in the chapel, unless excused.

6. *Inasmuch as frequent absence from school for any reason hinders the progress of study, permission to leave school will not be granted without good reason for such absence.* Week-end visits are not permitted unless the parent writes to the School requesting such permission and a written invitation is sent to the School by the parent in whose family the student desires to visit.

7. Unless properly excused, students are required to take regular exercise in the gymnasium under a trained instructor. For this purpose they are expected to provide themselves with suitable clothing, including shoes. Ladies should bring a proper gymnasium suit, preferably black serge, consisting of bloomers and waist. Shoes may be obtained at the school. Rubber soled shoes are not advisable for general gymnastic work.

All athletic games and contests and all public exercises are under the general control of a committee of the Faculty. No student can take part in any public game or contest unless he is a *bona fide* student whose conduct and standing in class are satisfactory.

8. It is expected that the ladies and gentlemen of the institution will treat one another with politeness, and in accordance with the usages of good society.

9. Ladies will not be permitted to have gentlemen, not relatives, visit them except by permission from the Preceptress.

10. Except for special reasons, no visiting will be permitted on Sunday or in the evening. Permission to receive visitors shall be obtained before

the visitors come to the school. Prolonged visits always interfere seriously with the progress of a student in his studies, and should not be made except for urgent reason and by previous arrangements for boarding, etc. Visits to students by any one during the school hours of the day or evening seriously interfere with their work, and should not be made unless necessary. The best time to visit students is Saturday afternoon. Young persons visiting students will be expected to conform to the regulations of the school. Children under twelve years of age will not visit students except by previous permission.

Study Hall

For the benefit of all Day Students a Study Hall is maintained and presided over by some member of the Faculty or other responsible person. Room R is devoted to this important purpose.

Study Hall Hours—8 A. M. to 12 M. and 1 P. M. to 4:15 P. M.

All day students will report in Study Hall for all their regular vacant periods, during the hours the Study Hall is maintained.

Business of the School

THE tuition of all students of the State Normal Schools, who are not less than seventeen years of age and who sign an agreement to teach in the public schools of this Commonwealth for not less than two years, and who are pursuing regular courses in pedagogy therein, shall be paid by the Commonwealth. (Extract from Section 2020, School Laws of Pennsylvania.)

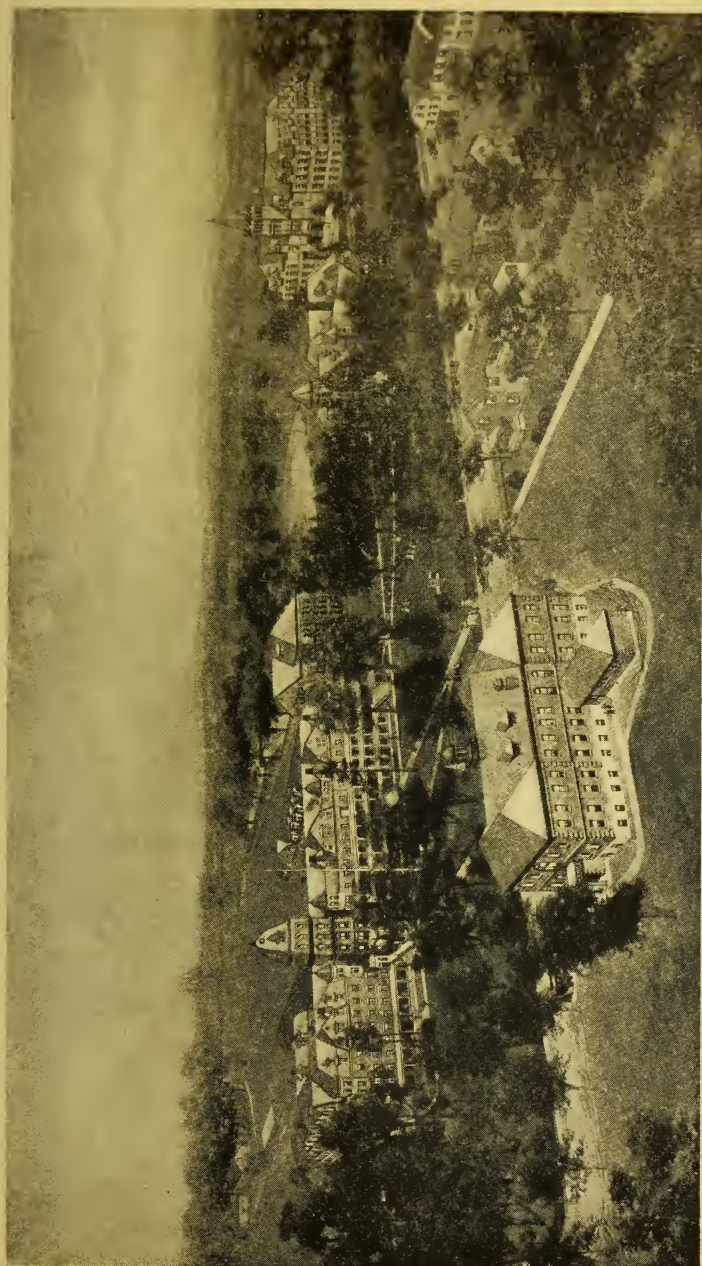

In case there is a deficit in the State Appropriations for free tuition, students at the several State Normal Schools will receive the same pro rata share of the appropriation. The full amount has been received for many years.

In order to be enrolled as a student in this Institution, all persons must pay an enrollment fee of \$2, no part of which is returned for any reason. This charge is made once during each school term.

The expense to boarding students for the entire year, including enrollment fee, board, tuition, room rent, heat, light, and laundry work, is \$266. If a boarding student receives State Aid, the expense is reduced to \$206 for the year.

Day students pay \$81 a year for enrollment fees, tuition, school privileges, and use of study hall. If a day student receives State Aid, the charge is \$21 per year.

The following table gives a clear and concise statement of the charges for each term, or part of a term, exclusive of enrollment fee:

Deduction—No deduction is made to students entering within the first two weeks, nor leaving within the last two weeks, of any term, nor for a part of a week.

No difference in the charge for boarding and tuition shall be made in favor of any students pursuing similar studies. (Extract from Section 2019, School Laws of Pennsylvania.)

Boarding students absent from school two full consecutive weeks on account of *personal sickness* are granted a reduction of \$3.00 a week for each full week absent.

Money paid in advance will be refunded provided said student presents to the Treasurer a withdrawal card signed by the Principal.

All students are admitted free to all regular lectures, entertainments, and athletic contests held under the auspices of the school.

Payments

All moneys must be paid to the Treasurer who acts on behalf of the Trustees. **Payment for board, tuition, music, etc., is to be made at the time a student enrolls and at the beginning of each term thereafter.**

A student's account (including books and stationery) must be settled at the end of each term. No student will be promoted, granted a withdrawal card, recommended to the State Board for examination or second diploma until all bills have been paid.

Checks, bank drafts, express, and post-office money orders may be used in payment of all bills. They should be drawn payable to the Treasurer.

There are no extra charges except for books and stationery and extra branches named above.

The extra expenses of students are very small, consequently they do not need large sums of spending money. Arrangements are made by which students may deposit money with the Treasurer, and draw it at such times as they desire.

Mail, Telegraph, Etc.

The school has three mails daily. Mail matter should be addressed: *Millersville, Lancaster Co., Pa.* The words *State Normal School* on the envelope of a letter or package will facilitate its delivery.

Write the name of the post-office, *Millersville*, plainly. Mail matter frequently fails to arrive promptly because it is directed to *Millersburg* or *Millerstown* or *Minersville*, instead of *Millersville*.

All telegrams addressed: *State Normal School, Millersville, Pa.*, will be sent to the school free by telephone from Lancaster.

Both telegraph companies—the Western Union and the Postal—have printed directions to this effect in their books of instructions to agents.

The school is connected by telephone with nearly all parts of eastern and central Pennsylvania.

Express packages should be prepaid and should be addressed: *Millersville State Normal School, Lancaster, Pa.*

Arrangements for Trunks

Trunks are brought from baggage rooms and taken to baggage rooms at the Pennsylvania and Reading railway stations by the Traction Company. When they come to school students will hand railroad checks for trunks to the *street car conductor on the Millersville car*, with payment for transportation of trunk. Trunks should be properly labeled by students. Labels are furnished free of charge on request.

Charges for Trunks, Grips, Suitcases

Trunks.	25c.
Grips.	15c.
Suitcases.	10c.

On the opening and closing days of the School, when the Company has a man in charge, the above rates include getting baggage from and taking it to both stations.
